

Type of correlation/association

spearman

Show average similarity above

☒ Weigh by time interval?

i Correlation at each time point is weight by the interval between itself and the next time point. It assumes the data structure stays unchanged until the next measurement point.

Variables

- ☒ Head.circumference
- ☒ Anogenitals.FA
- ☒ Anogenitals.anterior
- ☒ Bud.bead.size
- ☒ BMI.for.age
- ☒ FSH
- ☒ Estradiol_N
- ☒ Testosterone
- ☒ Ovary.volume
- ☒ Bud.bead.volume
- ☒ Thyroid.volume
- ☒ Uterus.volume
